WORK EXPERIENCE

Associate Software Engineer

Virtuous Transactional Analytics Pvt. Ltd.

06/2023 - Present

Noida, India

VITRANA - A Parexel Company is a private firm that develops software solutions in the field of pharmacovigilance.

Key Contributions:

- Architected and owned backend modules for ALAT — a pharmacovigilance solution for literature curation and review — serving 500+ records daily across multiple data sources.
- Built 10+ high-performance REST APIs using Java & Spring Boot, reducing response time by 30%.
- Responsible for authoring and managing execution of relevant documents such as manual Unit Test scripts.
- Implemented multilingual Japanese language support for ALAT dashboards in Power BI using Translations Builder, and developed relevant DAX measures to fix and optimize data visualizations.

Trainee

Virtuous Transactional Analytics Pvt. Ltd

12/2022 - 05/2023

Noida, India

Key Contributions:

- Collaborated with a 5-member team to develop and deliver 3+ new feature requirements.
- Built and tested REST APIs using Java & Spring Boot, contributing to the same production codebase as ASE role.
- Resolved 40+ critical bugs, improving system stability and reducing downtime by 20%.

Intern

Wipro Ltd.

02/2022 - 06/2022

Key Contributions:

- Worked on IBM-compatible mainframe modernization using Mocha TN3270 as primary internship stream.
- Worked in a team of 10 as team leader on the project Claims Processing System.
- Implemented online and batch processing modules for Claims Processing System.
- Gained hands-on experience with JCL, COBOL, VSAM, DB2, and CICS on IBM mainframe environment.

EDUCATION

B.Tech — Computer Science Engineering

Gautam Buddha University

06/2018 - 06/2022

CGPA: 8.14

SKILLS

Languages: Java, Python, JavaScript.

Frameworks: Spring Boot, React.

Tools & Platforms: Kafka, Git, Docker, Azure, Microsoft Power BI, Translations Builder.

Testing: JUnit, Manual Testing.

Soft Skills: Team Leadership, Cross-Functional Collaboration, Mentoring, Requirement Analysis.

PROJECTS

Emotion Detection using JavaScript Neural Networks - Major Project

- Implementation of Machine Learning through a library in JavaScript. The main objective of the project is to detect emotions from emotionally rich texts by simply writing or copy pasting from your applications to ours.

AWARDS AND CERTIFICATIONS

Python for Everybody by University of Michigan on Coursera. Certificate earned on December 12, 2020.
